

**STINA FUNCH**  
 Founder/Creative Director  
 Atwater Inc. Studio

SKY MANSION

**NOTABLE PAST PROJECTS:** The Amethyst Spa & Hotel Resort, Shenyang, China; Wynn Encore Macau, Macau; Marriott Dadonghai, Sanya, China; Le Bon Hotel, Hollywood

**CURRENTLY WORKING ON:** HooDoo Moab, a boutique hotel in Utah; Commerce Casino-Crowne Plaza Los Angeles; Sky Mansion luxury residences, Zhengzhou, China

**BIGGEST ACHIEVEMENT ON THE JOB:** Two years ago I took an educated leap and left my position at a well-known design firm to start my own boutique firm. My goal was to find a way to better meet the ever-changing needs of hospitality clients, while also allowing me to have the freedom to choose my destiny as both an accomplished professional and a mom. I believe I've found a creative way to meet these challenges and turn them into successes.

**BIGGEST CHALLENGE ON THE JOB:** Meeting the diverse needs of a global clientele. That includes understanding the importance of culture, tradition and a sense of place in creating a hospitality project that's fresh while also honoring historic traditions and local preferences. Another ongoing challenge: Steering clients toward making sound environmental decisions.

**IF NOT A DESIGNER, SHE'D BE A:** *Philanthropist who helps people improve their lives and the environment we live in.*
